

Connect this.....

a guide to cables, connectors and tools.

Four Star Wire & Cable not only stocks millions of feet of cable, we also stock all of the connectors and tools that are essential to complete your job quickly and efficiently. This example of applications will help you decide exactly what is required. It only covers a small portion of what we stock, so if you are unsure, please ask your sales representative and they will be able to provide you with the information that you need.
